

IOWA DIVISION *of* WORKERS' COMPENSATION

Rate Information: July 1, 2023–June 30, 2024

Issued June 8, 2023

The Iowa Division of Workers' Compensation (DWC) releases annual rate information for mileage reimbursement and the following types of weekly workers' compensation benefits: temporary total disability (TTD), healing period (HP), permanent partial disability (PPD), permanent total disability (PTD), and death. The rate information on this page applies to work injuries or travel occurring between the above dates. The table has historical rate information.

Statewide Average Weekly Wage (SAWW)

\$1,099.55

The maximum and minimum weekly workers' compensation rates are calculated using the SAWW determined by Iowa Workforce Development (IWD).

Maximum Weekly Rate

TTD, HP, PTD, & Death Benefits: \$2,199.00

PPD Benefits: \$2,023.00

The maximum weekly rate depends on the type of benefit. An injured employee's weekly benefit rate is based on 80% of the employee's weekly spendable earnings but may not exceed the maximum weekly rate at the time of injury.

Minimum Weekly Rate

TTD & HP Benefits: Lower of \$385.00 *or* Injured Employee's Spendable Earnings

PPD, PTD, & Death Benefits: \$385.00

The minimum weekly rate depends on the type of benefit. For TTD and HP benefits, it is an amount equal to either 35% of the SAWW or the injured employee's spendable earnings, whichever is less. For PPD, PTD, and death benefits, it is equal to the weekly benefit amount of a person whose gross weekly earnings are 35% of the SAWW.

Volunteer Fire Fighters, Emergency Medical Care Providers, Reserve Peace Officers, & Volunteer Ambulance Drivers

Greater of \$1,539.37 *or* Amount Equal to Compensation the Worker Would Be Paid If Injured in Normal Course of Regular Employment

Elected or Appointed Officials

\$1,539.37 *or* Weekly Rate Based on Earnings as Official

The official may choose either the weekly benefit rate based on the official's weekly earnings as an official or an amount equal to 140% of the SAWW.

Mileage

\$0.655 Per Mile

For mileage incidental to the use of a private auto to travel for care, the per-mile rate is the rate allowed by the federal Internal Revenue Service (IRS) for the business standard mileage rate in effect on July 1 of each year.

Iowa Workers' Compensation Rate Information: July 1, 1990–June 30, 2024

- Benefit rate information applies to work injuries that occur during the time period set by the effective dates in the lefthand column.
- The mileage rate in the righthand column applies to travel that occurs during the time period set by the effective dates in the lefthand column.
